

Willow Spring

CONSTRUCTION

PROVIDING

RELIABLE, QUALITY, CONSTRUCTION.

Our experienced team has expert knowledge of construction and the processes involved in new builds, additions and renovations. Talk to us about our pre-construction consultation and discover how we offer complete construction services tailored to your commercial building needs in the Greater Vancouver area and throughout the province.

CONSTRUCTION MANAGEMENT

We manage each stage of the construction process from design, development right through to construction providing our clients a finished building that meets their timelines and budgets. Our services are contracted either as a percentage of the overall budget cost or as an ongoing monthly fee.

FIXED PRICED CONTRACT BUILD

Willow Spring Construction uses a fixed Price tendering process to provide a traditional means of building projects. The owner engages the services of Architectural and Engineering Consultants to prepare a set of working drawings and specifications. Willow Spring Construction will then send out an invitation to pre-qualified sub-trades to bid on the project. A lump sum proposal is then provided based on the project information for review and approval prior to starting construction.

ABOUT US

Established in 1987, Willow Spring Construction is a privately owned, family run construction company, specializing in Commercial Construction. With over 25 years' experience in the construction industry, we are known for our steadfast commitments, solid relationships, and industrious work ethic. We are resolute in our promise to always deliver above and beyond.

We work closely with our Clients, Designers, Engineers, Trades and Suppliers to ensure the highest attention to detail and workmanship to deliver a project that is to your complete satisfaction.

RESTAURANTS

Willow Spring Construction's continued exposure to the restaurant industry by providing consistent service has earned us long term relationships with most national and many local restaurant chains.

COMMERCIAL / RETAIL

These projects require fast, flexible crews with a concern for good workmanship. They range from office tower floor renovations to big box retail upgrades.

HERITAGE / RENOVATIONS

Contractors not only require a broad knowledge of building construction techniques they also require excellent managerial and interactive skills. Liaising with architects and engineers is vital in the complex building renovation projects.

CHURCHES

These projects reveal the diversity of our capabilities. They highlight the resourcefulness, long standing relationships, and professional staff that we have established over the years.
